About Reevo

At Reevo we believe that a transparent relationship between brands and consumers is better for both. Over 200 brands agree with us and use our Ratings & Reviews, Social and Customer Intelligence products to engage with, listen to and learn from their customers.

We also believe we can help everyday people make better decisions about what to buy by connecting them with likeminded people. That's why we're always innovating – creating new tools for customers to express their opinions and constantly improving the ones we have.

We don't settle for average. We want to make cool stuff that serves a good purpose. If you work with us you will too.

Role Description
